

Product Information

TOP/ SHELF/ BASE

Vacuum formed in black or white 3mm thick Super High Impact Polystyrene suitable for use with food, as covered by the European Community Directive 2002/72/EC(90/128EEC) relating to plastic materials and articles intended to come into contact with foodstuffs. SHIPS has a Flammability Rating (using testing method UL94) of HB @ 1.6mm. Tops and bases are designed incorporating a "clip" for attaching to the body panel enabling the complete unit to be moved without coming apart. Tops are available with one, two or no holes.

RECYCLING

All promotional displays are manufactured from materials which when separated are suitable for recycling.

HEADERS

Single-sided made with 3mm black or white Forex with round corners with a Flammability Rating, BS476 part 7, Class 1, complete with self-adhesive plastic hollow fixings which fit over the swaged supporting poles. Double sided with square corners for use with slotted poles.

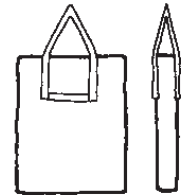

BODY PANEL

Extruded black or white Polypropylene 2mm and 3mm thick, machined unique "hinges" for folding which become more flexible and robust with use. Material has an ignition temperature of >300°C but is NOT classified as flammable.

POLES

Produced in 20g ERW steel tube 25mm diameter and finished in black, white, silver grey or bright silver powder epoxy. Inter-connecting poles are swaged at one end for simplicity of set up.

BAGS

Made from black 210 denier nylon with waterproof P.V.C. backing and pockets to take accessories, headers, and pole sets. Handles are in black nylon weave and zips where applicable are made from nylon continuous chain. Design of bag depends on which promotional display is required.
